OVER THE SQUARE

Viaduct In the Plan for a
New Electric Line.

Home Capital Meeting Postponed.
Too Much Weather—Mr. Paine
Was On Hand—The Plans.

The meeting called as a preliminary to organization of a local company to give the town a surface electric passenger line failed on account of the weather. Eight or ten men interested reached the Chamber of Commerce hall at 7:30 last evening. They decided in a very few minutes that it would be best to adjourn till the storm was over. Another call will be issued soon. Mr. Paine, manager of the Hawaiian Tramways Company and the attorney of the corporation, Mr. Paul Neumann, were present. Senator McCandless, who is taking an active part in the movement was on hand. P. C. Jones and several others who will be prominent in the home company were unable to attend.

Invitations to the meeting to have been held last evening stated the purpose of the gathering to be for the consideration of a proposition for an electric railway for Honolulu to be built entirely by home capital. The plan is to fix on the amount of subscription necessary for such an enterprise and to have a committee make a canvass of the town. This will be done within a fortnight. One report is that the Tramway Company will make negotiations to the new concern, looking to sale of the present system and its prospects or to consolidation with the electric project brought back from London by Mr. Paine and still in his valise. There is also a report that the Tramway people will fight the new movement to the last ditch. It is said that Mr. Paine has been given quite full powers by his company, but he labors under the disadvantage of being widely separated from his directorate. The Tram Company is to make a request to the Legislature for extensive favors. At the same time the new company will go before the lawmakers asking for an act that they say will be very modest and moderate in its charter terms.

In a way the system of lines that was proposed by the company that was before the last assembly for a charter will be adopted by the new home association. Bethel street is to be used. Waikiki will be reached via Queen street, through Kewalo and along the new beach road. This will save nearly a mile between town and Kapiolani park and is calculated to catch all the Sunday and holiday trade. It is planned to use Hotel street, crossing Thomas Square with a viaduct. This will be the route to the plains and Punahou and mauka of Beretania street. A section of belt line will be from Punahou clear around back of the park.

As both the town men and the Tram people are very much in earnest and have plenty of capital available a lively contest may be looked for during the legislative session and perhaps in the Courts and on the streets afterwards.

Leak Located.

Several days ago the S. P. Hitchcock, now in the stream, was discovered to be leaking. A thorough search was made, but the leak could not be located. Yesterday brought more success and the exact position of the leak was located on the starboard side and about two feet below the water line. What will be done has not been decided yet.

Much

Cheaper

In

India!

Why certainly! Much poorer, too!

And we didn't have to go there to find it out.

Why, they tell us everything is so cheap there, a man on a salary of Fifty Dollars a month has forty-seven servants at his beck and call, to say nothing of other luxuries. Try it here, and watch the fun.

But that's not exactly the kind of WATCH we refer to in this Ad.

Neither is it a labboard watch, but just a good every day kind of

ELGIN COMPANY

Grades vary. Some are better than others, but all are good, and no matter what grade you buy, whether the one at Seven Dollars and a Half or one at One Hundred Dollars, our guarantee covers it fully, as much on one as on the other. You know that that means you can pick it out blindfolded and take no risk of its being anything but perfect.

We are glad to take all the risks.
